

## CEPRO Robusto

Articlenumber: 096  
GTIN: 4050369008885  
Unit: 1 Stück  
Weight incl. packaging 24,00 kg

## Highlights

The basic frame of the tubular frame 096 is 2100x2100mm and has two swivel arms with a length of 700mm. In combination with laservision laser safety curtains it is very easy to build a laser safe area. The frame has two outriggers with stable castors and is therefore easy to move. Due to the low construction depth, a space-saving installation is possible.
