laservision

CEPRO Robusto

Highlights

The basic frame of the tubular frame 097 is 2100x2100mm. In combination with laservision laser safety curtains, it is very easy to set up a laser-safe area. The frame has two outriggers with stable castors and is therefore easy to move. Due to the low construction depth, a space-saving installation is possible.

Articlenumber: 097
GTIN: 4050369008892
Unit: 1 Stück
Weight incl. packaging 24,00 kg
Weight excl. packaging: 22,75 kg
