laservision

Head support system for frame R01/R02/R10/R17/X46

Highlights

For the laservision laser safety goggles R01, R02, R10, R17 and X46 which can come together with thick and heavy glass filters, laservision offers a head support system for a considerably higher wearing comfort. It scatters the weight of the goggle and reduces the pressure to the nose, the ears and the head itself. Two turntable adjusting screws enable a simple adaption to almost every head size.

Articlenumber: A01HSUPS1000
GTIN: 4050369014671
Unit: 1 Stück
Weight incl. packaging 0,13 kg
Weight excl. packaging: 0,09 kg
