Head support system for frame R14

Articlenumber: A14HSUPS1000

GTIN: 4050369044692

Unit: 1 Stück

Weight incl. packaging 0,13 kg

Highlights

For the laservision laser safety goggles R14 which can come together with thick and heavy glass filters, laservision offers a head support system for a considerably higher wearing comfort. It scatters the weight of the goggle and reduces the pressure to the nose, the ears and the head itself. Two turntable adjusting screws enable a simple adaption to almost every head size.
