Highlights

The F46 frame with Clipnetic RX insert (A46.RXINS.1000) is an alternative solution for glasses wearers, especially for applications in which laser safety eyewear are not suitable. The insert can be equipped with individual corrective lenses and is connected to the spectacles using the innovative Clipnetic magnet system. laservision offers an in-house glazing service for individual prescription lenses. For the use the way to the optician is no longer necessary. The Clipnetic RX insert (A46.RXINS.1000) can be ordered individually or as an option.
