laservision

Eyecap 22mm

Highlights

For laser applications in close proximity to the eye, and where the eyeball or PG ONE (P01) is too big, laservision offers special eye caps. the caps are available in 4 different sizes with diameters from 22 bis 26,5mm. Each cap is accompanied by a (rubber) suction cup for easy insertion and removal. The cap and the suction cup are autoclavable. Sales unit: 1 piece.
