

Eyecap 24mm

Highlights

For laser applications in close proximity to the eye, and where the eyeball or PG ONE (P01) is too large, laservision offers special eye caps. The caps are available in 4 different sizes with diameters from 22 bis 26,5mm. The A99ECPAS1024 has a diameter of 24,0mm. Each pair is accompanied by two (rubber) suction cups for easy insertion and removal. The caps and the suction cup are autoclavable. Sales unit: 1 piece.
