

Eyecap 25.5mm

Highlights

For laser applications in close proximity to the eye, and where the eyeball or PG ONE (P01) is too big, laservision offers special eye caps. The A99ECPAS1125 has a diameter of 25,5mm. The caps are available in 4 different sizes with diameters from 22 to 26,5mm. Each cap is accompanied by one (rubber) suction cups for easy insertion and removal. The caps and the suction cup are autoclavable. Sales unit: 1 piece.
