

E25.VPACK.1000 (E25 special packaging)

Highlights

The special packaging (E25.VPACK.1000) for the E25 modular partition wall systems is an individual custom-made product for each system. It consists of a pallet (2250mm x 800mm) that can be driven under, which is heat treated in accordance with IPPC regulations (registration number: DE-BY-495196). The E25 system is clamped on the pallet and secured against tipping between wooden posts. The fully assembled and ready-to-use E25 partitions are safely surrounded by a half-folding box (telescope box) that is securely attached to the pallet.

Articlenumber: E25VPACK1000

GTIN: 4050369070738

Unit: 1 Stück

Weight incl. packaging 31,00 kg
