### laser safety spectacle F20P1C02

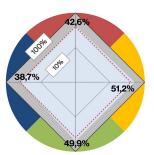

Articlenumber: F20P1C021001 GTIN: 4050369031708 Unit: 1 Stück Weight incl. packaging 0,27 kg Weight excl. packaging: 0,03 kg

### Highlights

- LB protection ratings acc. EN 207
- Especially suitable for Nd:YAG Laser and pump diodes
- Boadband filter for dental laser
- Very good color view and high visual brightness
- It is available in the frames <u>F18</u>, <u>F20</u>, <u>F22</u>, <u>F42</u> and in the sports version <u>F29</u>

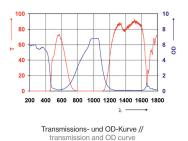

The laser safety spectacle F20.P1C02.1001 is suitable for laser radiation within the NIR-area (diode and YAG) and provides full protection. The filter P1C02 has a daylight transmission of about 60%. This releases a very good visual brightness and a good color view. The small light frame possesses a chamber at a basic curve 6 and offers a very good field of view and a good wearing comfort. The malleable temples ensure a nonskid fit. The spectacle is shipped in a metal box which can also be used as a storage box. For a professional cleaning of laser safety spectacles laservision recommends the cleaning station (A99.CLSTA.1300).

Transmission der Signalfarben nach DIN EN 172 // transmission of signal colours acc. to EN 172
