- 3 different frame styles available: [R01](#), [R14](#) and [R17](#)

The laservision laser safety goggle R14.T1E03.1004 with an aired foam frame (A), provides high protection ratings within the UV and VIS spectral area (180-578nm). The OTG goggle with red filters can be worn over average large correction glasses. The changeable click frame with an aired foam (A14AIRED1000) makes the goggles particularly comfortable to wear and prevents fogging of the laser protection filters. A clear view is guaranteed even with a long wearing period. The shipment includes a metal box which can also be used as a storage box. The removable frame can optionally be bought in sets of 5.
