Highlights

- Protection levels acc. to EN 207
- Application: Nd:YAG laser material processing
- Available with frame style [R14](#)
- Unrestricted colour view and high VLT
- As cabinet window available with max. 297x210 mm

The laservision laser safety goggle R14.T1K13.1004 with an aired foam frame (A), provides protection at 808nm; 1064nm and within the area 1,500-1,600nm. The OTG goggle with light grey filters can be worn over average large correction glasses. The changeable click frame with an aired foam (A14AIRE1000) makes the goggles particularly comfortable to wear and prevents fogging of the laser protection filters. A clear view is guaranteed even with a long wearing period. The shipment includes a metal box which can also be used as a storage box. The removable frame can optionally be bought in sets of 5.
