

TTS.M7P06.300x On-The-Table-System END

Highlights

The middle start or end module of this system TTS.M7P06.3002 is 600 mm long and can only be connected to other modules of this system on one side. It forms a nice finish to your new shielding and can be attached with the free end directly to the modules of the other systems (basic system and foldable edge system). The height of the system with 306 mm matches the other systems. Our barrier material M7P06 is built into this module for protection.
