Laser safety slats VL

Highlights

The laser safety slats VL00000001 are 1,600mm long and 300 mm broad. The laser safety slots consist of special silicon with very high laser stability. Concomitant they are stable against mechanical exposures and chemical substances. The assembling is carried out with slat-mounts which can be ordered separately. The stated protection levels result from an internal laser impact test in accordance with EN 12254:2012-04.

Articlenumber: VL00000001
GTIN: 4050369036703
Unit: 1 Stück
Weight incl. packaging 1,80 kg
Weight excl. packaging: 0,00 kg

COLOUR:	Red
PROPERTIES:	Slat curtain
PROTECTION RANGE:	near infrared, Infrared, visible, ultraviolett

DIN EN 12254

>1050-1105 DIR AB3 (internal laser impact test in accordance with EN 12254:2012-04)
