## Laser safety slats VL

Articlenumber: VL00000006  
GTIN: 4050369036727  
Weight incl. packaging 12,10 kg

### Highlights

The laser safety slats VL00000006 are 10,000mm long and 300 mm broad. They are machine-cut and pre-drilled. The laser safety slots consist of special silicon with very high laser stability. Concomitant they are stable against mechanical exposures and chemical substances. The assembling is carried out with slat-mounts which can be ordered separately. The stated protection levels result from an internal laser impact test in accordance with EN 12254:2012-04.
