foldable laser safety barrier BM0

Article number: BM0M5P065003
GTIN: 4050369021136
Unit: piece
Weight incl. packaging: 21,90 kg
Weight excl. packaging: 20,00 kg

Highlights

The foldable laser safety barrier BM0.M5P06.5003 features the dimensions of 2,97m width and consists of 5 segments, 0,86m each. The standard height including the wheels is 2,08m. The end panel of the foldable version ensures a stable stand and is mounted across to the other walls. The end panel is 0,67m wide. At the flexible joints every angle can be adjusted. This ensures that the wall can be retracted to 1 panel width and therefore it is very space-saving. For a laser protecting coverage at the gaps between the segments laservision includes barrier faceplates.

COLOUR:	black
PROPERTIES:	both-sides usable Lightweight
PROTECTION CLASS / NORM:	EN 12254
